

CARE FOR CLIMATE®

GOLDEN ECO-CHAMPION™ for strategic environmental management

By implementing legally prescribed environmental standards and providing used oils for the manufacture of state-of-the-art lubricant products, our partner Wittebrug made a significant contribution to global climate protection in 2025. As a primary user of the aforementioned used oils, PURAGLOBE uses them to produce fuel-saving and thus environmentally friendly low-viscosity engine oils.

Wittebrug

Donau 120, 2491 BC Den Haag
contributed to CO₂ savings of
249,7 metric tons in 2025.

By issuing this **CARE FOR CLIMATE®**-
mission 2025 certificate, Wittebrug should be
distinguished as a GOLDEN ECO-CHAMPION™.

A handwritten signature in black ink, appearing to read 'Soenke Moehr', positioned above a horizontal dotted line.
